

FROM WASHINGTON.

special Dispatch to The N. Y. Tribune.
WASHINGTON, Friday, Sept. 8, 1865.
WESTERN STEAMBOAT BURNERS—JEFF. DAVIS
SUBPARNER.

A Military Commission has been organized, and will proceed to the trial, at St. Louis, of the burners of the Western river. It is stated that the culprits, many of whom have been a long time under arrest, have a large fund at their command, and under the services of Col. J. W. Bell to conduct their defense. Subpoenas have been issued for Jefferson Davis, and Secretaries Mallory and Seddon, to testify in the case.

A POSTAL RELIC.

W. W. Cox of the Post-Office Department has had lithographed a fac simile copy of Benjamin Franklin's first ledger of the Department, kept by himself while Postmaster-General.

MILITARY PERSONAL.

Augustus W. Constable was appointed today by President Johnson a Third Lieutenant in the Revenue Service.

IRON MANUFACTURES.

The eighth census represents 36 establishments for the manufacture of bar, sheet and railroad iron in the Middle States in 1860, with an invested capital of \$2,657,500; the cost of raw material annually is \$2,657,500; the number of male hands employed, 2,436; cost of labor, \$855,650; and annual value of products, \$4,865,769.

A COLORED MAIL CONTRACTOR.

The Postmaster-General to-day awarded the contract for carrying the United States mails between Leeburg and Winchester, Va., to Robert Orrick, a colored citizen of the latter town, at a salary of \$525 per annum. This is the first instance of similar award being made to a colored man by the Government. The respectability and trustworthiness of the contractor are vouched for by the Hon. Jno. S. Gallager, formerly State Senator from the Winchester District.

LAND OFFICE STATISTICS.

The returns to the General Land Office show that in the month of August last, 12,667 acres of the public domain were taken up for actual settlement, under the homestead law at Booneville, Mo. Of that quantity, 4,500 acres were sold at \$2.50 per acre. The cash sales at that office in the same month amounted to \$2,877.43.

NEW-MEXICAN INDIANS.

J. K. Graves, esp., who has recently been appointed agent for the purchase and distribution of Government goods to the Indians of New-Mexico leaves for New-York in a day or two for the purpose of making the necessary purchases. It has formerly been the custom of the Indian Bureau to contract for all such purchases, but owing to the frequent occurrence of peculation and fraud under this system it has been determined as agent for such purchases men whose well-known probity will be a sufficient guarantee for the faithful discharge of their duties. The purchases, for which have been appropriated, will consist mainly of blankets, clothing and trinkets of various kinds, so much appreciated by the Indians.

PENSION SURGEON.

James Phillips, M. D., of this city, was today appointed an Examining Surgeon of the Pension Office.

NAVAL PRIZES.

The following Naval Prizes are ready for distribution at the Fourth Auditor's office: *Bienvenue*, Princess Royal, San Jacinto, Sea Bird, Fox, Two Sisters, Annie, Honduras, Itasca, Hendrik Hudson, Matthew Vassar, Osage, Chetivah, Champion, and Fort Mifflin.

INTERNAL REVENUE.

The receipts from internal revenue to-day were \$1,143,147.93.

THE FREEDMEN—REPORT OF GEN. FISK.

Brig-Gen. Fisk, Assistant-Commissioner of Freedmen's Affairs for the States of Kentucky, Tennessee and Northern Alabama, reports to Gen. Howard that he has just returned from a tour of inspection through Middle and East Tennessee and Northern Alabama, and finds continued and increased activity in the affairs of the Bureau.

After stating that a large proportion of the people cheerfully cooperate with him in the free labor system, Gen. Fisk speaks of a class of former slaveholders to whom he refers as unscrupulous, and who cling with surprising tenacity to the old barbarism. The Freedmen's Courts in the States mentioned are crowded with colored applicants for wages withheld by their employers, and in some localities the crack of the whip and the jingle of the shackles are as common as in the days of Uncle Tom and Topsy. Gen. Fisk expresses the belief that the States of Tennessee and Alabama will provide for the negro's right to justice at the approaching session of their Legislatures, while the great demand for labor will do much toward regulating its just compensation. The General has given his special attention to the breaking up of the Freedmen's camps through out the States under his control, and reports that of the 7,151 Freedmen subsisted by the Government on the 15th of July, but 979, mostly of the aged and infirm class, are now drawing rations from the United States. The number of refugees from the date referred to has also decreased to 11; whereas 3,500 were formerly supported by the Government. He represents the harvest in East Tennessee as abundant, but states that the crops of Middle Tennessee and Northern Alabama have suffered much from drought, and that there will probably be a great scarcity of food in some localities before another harvest can be gathered. In conclusion, Gen. Fisk recommends that the State and county authorities take care of their own poor, in order to relieve the Government of the expense it is now incurring for their support.

LAND OFFICE STATISTICS.

In the month of August, 29,735 acres were taken up at the Land Office at Marietta, Mich., with Agricultural College receipts.

SAWING LUMBER AT THE SOUTH.

The volume of manufactures now being prepared at the General Land and Census Office, represents that there were in 1860, 3,508 establishments in the Southern States for the sawing of lumber, and employing 15,324 males and 321 female slave hands. The total capital invested was \$12,437,000; cost of raw material, \$7,244,123; annual cost of labor, \$5,361,373; and annual value of products, \$16,623,436.

To the Associated Press.

WASHINGTON, Friday, Sept. 8, 1865.
PRINTING TREASURY NOTES.
The Treasury Department has printed \$30,000,000 of the six per cent compound interest notes, to replace those received in business transactions and interest. The right to issue them for the five per cent interest notes is also confirmed by law. By this arrangement \$30,000,000 of interest-bearing notes have been saved to the Government within the last three months. All these notes are legal tender. There is no increase of the currency, but merely the issuing of new notes for old ones at a saving to the Government.

COTTON FROM ALEXANDRIA.

Yesterday about 25 bales of cotton were shipped from Alexandria, Va., to New-York by the New-York Steamship Line, the first shipped from this section of the country during the past four years, and about the third of fourth shipments of this staple ever made from Alexandria. More of it is expected soon to follow.

CRIME IN WASHINGTON.

The Superintendent of the Metropolitan Police states in an official report, that robberies and burglaries are alarmingly on the increase in the District of Columbia, and that the disbanded and paying off of the army, has left here and drawn hither large numbers of desperate characters, who make a systematic business of robbing soldiers, stealing horses, and committing depredations upon property. He adds: "There is a class of rum shops in our city, whose entire income and support come from thieves and desperate characters, and who are allowed to keep their den open the entire night, there being no law to prevent them. The amount of debauchery, robbery and murder that is perpetrated upon this community through these resorts, especially those that keep open at all hours of the night, is truly fearful."

FROM NORTH CAROLINA.

An Interesting Case—Rent Claim for Military Occupation Not Allowed.

NEWBERN, Tuesday, Sept. 5, 1865.
Mrs. Robinson, a loyal widow lady, living in Beaufort, N. C., made an application for the rent of a building occupied by the Government. A decision recently arrived from Washington, adverse to her claim on the ground that Beaufort was a captured city; therefore all the property, including personal, in the town, is lawful prize of war. This decision will apply to all property and persons in the insurrectionary States, which are also conquered territory.

CALIFORNIA POLITICS.

A Quiet Election—Union Success in the Principal Counties—The Vote of San Francisco—Insipid Result for Senatorial Aspirants.

SAN FRANCISCO, Thursday, Sept. 7, 1865.
The election throughout this State yesterday passed off quietly, and the vote was light. The principal counties return Union men to the Legislature, San Francisco elects 7 People's Independent Union members, and 7 Democrats. The vote was 9,000 less than last November.

The result is regarded as unfavorable to J. R. Felton and T. G. Phelps, both aspirants to succeed Mr. McDougall in the United States Senate, and hoping to secure the delegation from this city. Neither of them get any votes here.

MISSISSIPPI.

The New Constitution Received at Washington.

WASHINGTON, Friday, Sept. 8, 1865.
The following has been addressed by the Provisional Governor of Mississippi to the Secretary of State:

EXECUTIVE OFFICE, JACKSON, Miss., Aug. 28, 1865.
To His Excellency WILLIAM H. SEWARD, Secretary of State.
SIR: I have the honor to acknowledge the receipt of a copy of the Constitution of Mississippi as amended, together with copies of the several ordinances adopted, which I hope will be satisfactory.

Respectfully, your obedient servant,
W. L. SHARKEY.
Provisional Governor of Mississippi.
To His Excellency Wm. L. SHARKEY, Provisional Governor of the State of Mississippi, Jackson.

SIR: Your letter of the 26th ult., accompanied by a copy of the amended Constitution of Mississippi, has been received, and will engage the early attention of the President. I have the honor to be your Excellency's obedient servant.

WILLIAM H. SEWARD.

The Catastrophe Near Nashville.

NASHVILLE, Friday, Sept. 8, 1865.
The explosion yesterday on the North-Western Railroad was a terrible affair. The train consisted of eight cars and passenger coaches, and there were nearly 200 persons on board. The two foremost cars contained powder, shot and shell, and it is supposed, sparks from the locomotive communicated with the powder through cracks in the car, causing the explosion.

Seven persons were killed outright, and nearly all received more or less injury. The fireman was killed, the engineer badly injured, and the conductor slightly. Among the slightly injured was Mr. Van Valkenburg, Assistant Superintendent of Telegraph. All the cars were blown to pieces, except the two in the rear. The engine was totally wrecked, and the boiler was so terribly hot, and shook the buildings in town like an earthquake.

Military Matters—Organization of Colored Troops—The White Soldiers to be Mustered Out.

LOUISVILLE, Friday, Sept. 8, 1865.
Major-Gen. J. N. Palmer has organized the ten Regiments of Colored troops now serving in the Department of Kentucky into one Division of three Brigades. Brig-Gen. James H. Brislin has been assigned to the command of the Division, with Brevet Brig-Gen. Wade, Col. S. A. Porter, and Col. M. McArthur for Brigade commanders. All the white troops in the Department are to be mustered out. Gen. Palmer and Brislin are the only general officers now on duty in Kentucky.

The California Telegraph Line—No Indians on the Route—The Wires Working Well—Anticipated Battle on Big Horn River.

OMAHA, N. T., Thursday, Sept. 7, 1865.
The overland telegraph line to California is in excellent working order. There are no Indians on the route, and no further troubles from that source are anticipated. News is expected daily of a battle between Gen. Crook's forces and the Indians on the Big Horn River, a branch of the Yellowstone, in the Rocky Mountains.

The Russian American Telegraph—Completion of Nearly 400 Miles.

SAN FRANCISCO, Thursday, Sept. 7, 1865.
News from New-Westminster to the 5th inst., says the telegraph is now completed 370 miles northward from that place.

The New-England Agricultural Fair.

CONCORD, N. H., Friday, Sept. 8, 1865.
The New-England Fair, now closed, has in every sense proved a perfect success. At the week-stands that this afternoon, the Blackstone Belle and Frank Verman were competitors, Empress having been withdrawn. Frank Verman won the race in three straight heats, time, 2:36, 2:40 and 2:39. He then took a running race was made between Tom Davis, owned by Springfield, Mass., and J. J. Davis, owned by Framingham, which was won by Tom in two straight heats, time, 2:15 and 2:28.

Death of Ex-Gov. Page of N. H.

BOSTON, Friday, Sept. 8, 1865.
Ex-Gov. John Page died this morning at his residence in Haverhill, New-Hampshire.

Fire in Toronto.

TORONTO, Friday, Sept. 8, 1865.
A large fire occurred in this city this morning, commencing in Dodgson, Shields & Co.'s grocery store, corner of Yonge and Temperance-sts., which was quickly destroyed, together with Edwards's stationery shop, several dwellings on Temperance-st., and the new Methodist Church. Loss over \$50,000.

Negro Suffrage in Connecticut.

The Union State Central Committee of Connecticut has issued an address to the people of the State in reference to the approaching election. The following paragraphs taken from it, in favor of extending the right of suffrage to colored men:
"The record of the last four years is still before us. Black men and white have fought side by side for the preservation of this Union; they have suffered alike, and they sleep side by side in honored graves. During all this struggle for our existence as a nation, the black race has been true to the Union, faithful among the faithful, in some parts of the Republic, the unflinching friends of our soldiers, the true guides of our officers, prompt to save our armies of approaching danger, vigilant to discover the designs of the enemy, brave and always true to aid and succor our prisoners in their flight. Have they not, by their fidelity and courage, done something to relieve us of the prejudice against them on account of color?
"And now the question comes to us: Shall not the black man, who can answer all the requirements of our law, be permitted to cast his vote at the ballot-box? Now is the time to mete out long-denied justice. Shall it not be given? We have every reason to hope that it will. Throughout the State the signs are auspicious. Friends of the Government everywhere appreciate the importance of the issue. Old prejudices have melted away in the fires of the great struggle. Loyalty everywhere welcomes and honors true loyalty. And if every friend of the Union will but do his duty, in a thorough canvass, and at the polls on the first Monday in October, the proposed amendment will be adopted, an act of justice will be done, right will be vindicated, and the Government strengthened. To this end the Union State Central Committee expects and calls upon every true Union man to do his whole duty. The result will richly reward exertion."

WESTERN UNION TELEGRAPH.—The receipts of the Western Union Telegraph Company, from all sources for July, 1865, were \$239,854.33, and for the corresponding month last year, \$181,284. Increase, \$58,569.33. The total earnings from Jan. 1 to July 31, 1865, were \$1,137,540.33, and for the same time in 1864, \$1,116,329.83. Increase, \$21,210.50.

A melancholy sky wept, last evening, over what everybody else was disposed to enjoy—the performance of "King Lear," at the Broadway Theater, for the benefit of Mrs. Keen. Yet the house was very full, and the representation passed smoothly off. It will be repeated to-day, and, we trust, under sunnier auspices. Meanwhile we shall reserve the theme for more considerate treatment than it could receive in a hasty paragraph. Mr. Keen's Lear is not a personation that can be dismissed in rapid phrase. Mrs. Keen's part in the tragedy proves to be that of The Fool, while the Cordelia is Miss Chapman. Our conjectures as to the cast were erroneous. Mrs. Tyrrel plays Regan and Mr. Everett essays the Duke of Kent. The Matinee commences at 1 o'clock. On Monday Mr. Keen will play Othello.

To-night Mr. Frank Drew makes his second appearance at this theater, in "Handy Andy," the burlesque of "Camille," and "The Widow's Victim." His light and vivacious acting serves as a good foil to the more serious business of the week.

At Niblo's Garden, to-day, there will be a matinee performance of "Arrah-na-Pogue." The popularity of this drama is by no means on the wane, notwithstanding the close proximity of its withdrawal. It will be continued only one week more.

Signor Blitza also gives a matinee performance to-day, which the children ought to be permitted to enjoy.

The usual afternoon performance at Barnum's Museum should not be overlooked by those scrupulously moral persons to whom the Museum makes its appeal.

The opening of the Olympic and of Wallace's will not long be delayed. Mr. Lester Wallace has returned to the city, much improved in health by a sojourn in the White Mountains. We have heard that he will produce a new comedy early in the season. He has engaged Mr. Edwin L. Davenport to assist him in the leading business, and has also effected an engagement with Mrs. Hoy, who returns to a stage of which she was long an ornament. In other respects the theatrical company is made up much as it was last Winter.

Artemus Ward is reported to be convalescent. He will, however, be unable to resume his vocation for several weeks.

MR. STEPHEN MASSETT.—Mr. Massett (better known as Col. James Pipes of Pipeville), is about starting on an extended lecturing tour through the West. His subject is "Drifting About," full of fun and sentiment. It has been most successful here, and we doubt not it will meet with universal approbation elsewhere.

THE AMERICAN CONFLICT.—We call attention to the advertisement of "Agents wanted to sell the American Conflict," by Horace Greeley. Those seeking employment will find this an opportunity seldom met with.

PRESENTATION TO A SEA CAPTAIN.—Capt. Grogan of the steamship Queen was the recipient of a handsome silver, 2 goblets and pitcher costing \$50, by the cabin passengers on this, her first voyage from Liverpool. The President of the United States and the Queen of England were toasted on the occasion, and after a pleasant collation, with singing, speeches, &c., the company retired.

[Advertisement.]

[Dr. Keyser is a physician of over thirty years' experience, and a graduate of the Jefferson Medical College and of the University of Medicine and Surgery of Philadelphia.]

DEAR SIR: In regard to the question asked me as to my opinion about BUCHI, I would say that I have used and sold the article in various forms for the past thirty years. I do not think there is any form of preparation of it I have not used or known to be used, in the various diseases where such medicine agent would be indicated. You are aware, as well as myself, that it has been extensively employed in the various diseases of the bladder and kidneys, and the reputation it has acquired in my judgment is warranted by the facts.

I have seen and used, as before stated, every form of BUCHI—the powdered leaves, the simple decoction, tincture, fluid extracts—and I am not cognizant of any preparation of that plant at all equal to yours. Twelve years' experience ought, I think, to give me the right to judge of its merits, and without prejudice or partiality I give your precedence over all others. I do not value a thing according to its bulk, if I did, other BUCHI would out-do yours, but I hold to the doctrine that bulk and quantity do not make up value—if they did a copper cent would be worth more than a gold dollar.

I value your BUCHI for its effect on patients. I have cured with it, and seen cured with it, more diseases of the bladder and kidneys than I have ever seen cured with any other BUCHI, or any other proprietary compound of whatever name.

Respectfully yours, &c.,
GEO. H. KEYSER,
No. 119 Woodst., Pittsburgh, Pa.
August 11, 1865.

COLTON DENTAL ASSOCIATION.

BY ONE WHO WAS THERE.
From The Bradford Argus, Aug. 31.
Alighting from the omnibus which has brought us up through Broadway's hurrying throng, which seems ever pursuing some mocking phantom that eludes their grasp, we ascend the marble steps of the "Cooper Union." It is "all very fine" to enter this pleasant reception room, but the study beyond the folding doors—"aye, there's the rub!" But as the kindly face and pleasant voice of the professor greet us, our errand seems short of all its terrors. Yet we cannot forbear asking as we present our credentials and look timidly up at the compassionate dark eyes so far above our own diminutive stature: "Will it kill us?" A pleasant laugh and assuring word convince us that our time has not yet come, and we comply with the invitation to enter the operating room, with our two accompanying friends (the fair face of one assumes the hue of driven snow), with very much the feeling that the fly accepted the proffered hospitality of the spider. Ere aware of it we are seated in the dreaded chair, engaged in pleasant conversation. Suddenly we find a prop insinuated between our jaws, and the mouth-piece of a villainous-looking black bag between our lips. Two pairs of hands so gentle in their manipulations as to almost lead one to doubt their owners belonging to the masculine persuasion, hold our mouth upon the pipe that the inhalation of the Gas may be more perfect; while the owners of the aforesaid hands speak gentle words of encouragement. The soft hand of a lady assistant laid assuring on our own, and we can almost feel the suppressed anxiety of the two beloved companions behind the chair. A buzzing sound as of myriad swarms of bees! Anon comes floating by, in grand measures and long-drawn cadences, a sweet old triumphal hymn, such as those may sing who, having left all of earth behind them, enter into the glory of their Lord; and mingled with this a wild symphony of dashing waves, ringing their "ceaseless never more." Yet how strange that last word of the hymn gave us a slight twitch, followed by two more, which partook of the nature of a strong yet painless wrench. "Your teeth are out," say three kind voices; but we have not come down yet to this subsidiary world sufficiently to comprehend their meaning, until the assurance is repeated by one of the familiar voices behind the chair. We rise a new being, and leave at the feet of the kind operator fifteen molars and incisors—a tribute to the greatest discovery of the age. MARY N. ROCKWELL.

What a Burden of Uncertainty it Removes.—The opening of each window and door telegraphs to your room. Can't fail. E. HOLMES, No. 126 Broadway.
